# U.S. Fire Administration Mission Statement

---

As an entity of the Federal Emergency Management Agency, the mission of the United States Fire Administration is to reduce life and economic losses due to fire and related emergencies through leadership, advocacy, coordination, and support. We serve the Nation independently, in coordination with other Federal agencies and in partnership with fire protection and emergency service communities. With a commitment to excellence, we provide public education, training, technology, and data initiatives.

On March 1, 2003, FEMA became part of the U.S. Department of Homeland Security. FEMA's continuing mission within the new department is to lead the effort to prepare the Nation for all hazards and effectively manage Federal response and recovery efforts following any national incident. FEMA also initiates proactive mitigation activities, trains first responders, and manages the Citizen Corps, the National Flood Insurance Program, and the U.S. Fire Administration.

<b>ACKNOWLEDGMENTS .....</b>	<b>xi</b>
<b>EXECUTIVE SUMMARY .....</b>	<b>1</b>
Purpose and Scope .....	1
Losses by Property Type .....	2
Residential Properties .....	3
Non-Residential Properties .....	5
Detection and Extinguishment Systems .....	6
Ethnic, Age, and Gender Characteristics of Victims .....	8
Firefighter Casualties .....	9
Regional and State Profiles .....	10
Conclusions .....	10
<b>CHAPTER 1 – INTRODUCTION .....</b>	<b>13</b>
Sources .....	14
National Fire Incident Reporting System .....	14
Uses of NFIRS .....	19
Methodology .....	20
September 11, 2001 Casualties .....	20
National Estimates .....	20
Unknowns .....	21
Adjusted Percentages .....	21
Representativeness of the Sample .....	21
NFIRS 5.0 Changes .....	22
Trend Data .....	23
Cause Categories .....	24
Rounding .....	25
Differences Between NFIRS and NFPA Data .....	26
Unreported Fires .....	26
Organization of Report .....	26
<b>CHAPTER 2 – THE NATIONAL FIRE PROBLEM .....</b>	<b>29</b>
Overview .....	29
The Broader Context .....	31
U.S. Fire Deaths Versus Other Nations .....	33
Total Cost of Fire .....	33
Fire Casualties by Population Group .....	34
State and Regional Profiles .....	34
Gender .....	39
Age .....	42
Ethnic Groups .....	44

Kinds of Properties Where Fires Occur .....	46
Property Types .....	46
Trends .....	48
Losses .....	50
Causes of Fires and Fire Losses .....	51
USFA Resources on the National Fire Problem .....	54
<b>CHAPTER 3 – RESIDENTIAL PROPERTIES .....</b>	<b>59</b>
Overview .....	59
Types of Residences .....	61
Causes .....	62
Cause Trends .....	64
Smoke Alarm Performance .....	70
Presence of Automatic Extinguishing Systems .....	72
When Fires Occur .....	72
One- and Two-Family Homes .....	74
Overview of Trends .....	75
When Fires Occur .....	75
Causes .....	75
Cause Trends .....	79
Area of Fire Origin .....	81
Smoke Alarm Performance .....	81
Presence of Automatic Extinguishing Systems .....	83
Mobile Homes Used as Fixed Residences .....	83
Apartments .....	87
Trends .....	88
Causes .....	88
Cause Trends .....	91

## Acknowledgments

---

The United States Fire Administration greatly appreciates the participation in the National Fire Incident Reporting System (NFIRS) of nearly 13,000 fire departments across the United States. The NFIRS data, on which the bulk of this report is based, are available through the work of the staffs of the various state agencies and state fire marshals' offices responsible for fire data collection and on each and every fire officer who fills out an NFIRS form. Without their efforts to collect data, this report could not exist. Although reporting to NFIRS is wholly voluntary, the information collected on nearly 600,000 fires each year represents the most comprehensive set of fire data and statistics in the world.

The National Fire Information Council (NFIC), a nonprofit organization of the state and metropolitan area participants in NFIRS, helps coordinate and specify requirements for NFIRS and its operation. NFIC represents an outstanding example of local, state, and federal cooperation on a major, long-term undertaking.

The report was produced by TriData Corporation, Arlington, Virginia, for the National Fire Data Center, USFA, under Contract Number EME-2000-DO-0396.

Copies of this report are available by writing:

**U.S. Fire Administration**  
Federal Emergency Management Agency  
Publications Center  
16825 South Seton Avenue  
Emmitsburg, Maryland 21727

Documents may also be ordered on the World Wide Web: <http://www.usfa.fema.gov/applications/publications>.

The United States Fire Administration also thanks the many state fire marshals' offices or their equivalents for their assistance with, and input to, the state fire death data presented in Chapter 2.
